# ISO/IEC JTC1/SC2/WG2/IRG N1347

## ISO/IEC JTC1/SC2/WG2 N3318

2007-09-07

### ISO/IEC JTC1/SC2/WG2

### Universal Multiple-Octet Coded Character Set (UCS)

Secretariat: ANSI

Title:	Proposal to encode six CJK Ideographs in UCS
Doc. Type:	national body contribution
Source:	Japan
Project:	
Status:	To be discussed at the WG2 meeting 51 in Hangzhou, China
Date:	2007-09-07
Distribution:	ISO/IEC JTC1/SC2/WG2 and IRG experts
Attachments	Proposal summary form

# **Background and Rationale**

ARIB STD-B24 Version 5.1 ("Data Coding and Transmission for Digital Broadcasting" Association of Radio Industries and Business) specifies text coding for data broadcasting, which is carried out as part of the digital broadcasting standard in Japan. It adopts 7bit and 8bit codes and their code extension technique according to ISO/IEC 2022 for text data transmission as well as ISO/IEC 10646. The primary method of data transmission is ISO/IEC 2022 based 7bit and 8bit codes and it specifies supplementary character (GAIJI) set as well as standard character sets (JIS X 0201, JIS X 0208, JIS X 0213:2004) to be available for digital broadcasting service in Japan. There are 137 CJK Ideographs defined in the GAIJI set. After full examination by Japanese national body members, six unencoded characters in UCS (including CJK Unified Ideographs in FPDAM4 and CJK Unified Ideographs Extension C in PDAM5) are found among the GAIJI set. Japan requests to encode the remaining six characters proposed in this document in the earliest opportunity in order to establish the standard transcoding for UCS based Digital TV devices because the market demand of those devices with data exchange capability according to this specification is expected to be very strong and its implementation phase has already begun in Japan.

# Proposed CJK Unified Ideographs

## Number of characters: two

## Proposed block: CJK UNIFIED IDEOGRAPHS

Glyph	ARIB	Proposed	IDS	Proposed Name
	ID	Source		
		Reference		
梁	47	J_ARIB-754F	日田氵刃木	CJK UNIFIED IDEOGRAPH-XXXX
鿅	95	J_ARIB-7621	Ⅲネ 零	CJK UNIFIED IDEOGRAPH-XXXX

## Proposed CJK Compatibility Ideographs

### Number of characters : four

## Proposed block : CJK COMPATIBILITY IDEOGRAPHS

Glyph	ARIB	Proposed	Compatibility	IDS	Proposed Name
	ID	Source	equivalence		
	10	Reference	cquivaience		
恵	39	J_ARIB-7547	U+06075 恵	□ 恵 ヽ	СЈК
內					COMPATIBILITY
					IDEOGRAPH-XXXX
貺	67	J_ARIB-7563	U+242EE 熙	三 臣己 ~~	CJK COMPATIBILITY IDEOGRAPH-XXXX
ナキ	93	J_ARIB-757D	U+07953 祓		СЈК

#### ISO/IEC JTC 1/SC 2/WG 2

#### PROPOSAL SUMMARY FORM TO ACCOMPANY SUBMISSIONS

#### FOR ADDITIONS TO THE REPERTOIRE OF ISO/IEC 10646<sup>1</sup>

#### Please fill all the sections A, B and C below.

Please read Principles and Procedures Document (P & P) from <a href="http://www.dkuug.dk/JTC1/SC2/WG2/docs/principles.html">http://www.dkuug.dk/JTC1/SC2/WG2/docs/principles.html</a> for

#### guidelines and details before filling this form.

Please ensure you are using the latest Form from http://www.dkuug.dk/JTC1/SC2/WG2/docs/summaryform.html.

See also http://www.dkuug.dk/JTC1/SC2/WG2/docs/roadmaps.html for latest Roadmaps.

#### A. Administrative

1. Title:	Proposal to encode six CJK Ideographs in UCS						
2. Requester's na	ster's name: Japan						
3. Requester type (Member body/Liaison/Individual contribution): Member			Member bo	dy			
4. Submission date: September 7,				2007			
5. Requester's reference (if applicable):							
6. Choose one o	f the fol	lowing:					
This is a complete proposal:					Yes		
(or) More	e inform	nation will be pro	vided	later:			
B. Technical – C	Seneral						
1. Choose one o	f the fol	lowing:					
a. This proposal is for a new script (set of characters):				No			
Prop	oosed n	ame of script:					
b. The proposal is for addition of character(s) to an existing block: Yes							
Name of the existing block:         CJK Unified Ideographs and CJK Compatibility Ideographs							
2. Number of characters in proposal: six							
3. Proposed category (select one from below - see section 2.2 of P&P document):							
A-Contempor	emporary x B.1-Specialized (small collection) B.2-Specialized (large collection)			ollection)			
C-Major extine	ct	D-Attested	extinct			E-Minor extinct	
F-Archaic Hieroglyphic or Ideographic G-Obscure or questionable usage symbols							
4. Is a repertoire including character names provided? Yes				Yes			
a. If YES, are the names in accordance with the "character naming guidelines"							
in Annex L of P&P document? Yes			Yes				
b. Are the character shapes attached in a legible form suitable for review? Yes							
5. Who will provide the appropriate computerized font (ordered preference: True Type, or PostScript format) for							
publishing the standard? True Type, Japan NB							
If available now, identify source(s) for the font (include address, e-mail, ftp-site, etc.) and indicate the tools							

<sup>&</sup>lt;sup>1</sup> Form number: N3102-F (Original 1994-10-14; Revised 1995-01, 1995-04, 1996-04, 1996-08, 1999-03, 2001-05, 2001-09, 2003-11, 2005-01, 2005-09, 2005-10, 2007-03)

used:					
6. References:					
a. Are references (to other character sets, o	lictionaries, descriptive texts etc.) provided?	Yes			
b. Are published examples of use (such as	samples from newspapers, magazines, or other source	s)			
of proposed characters attached?	No				
7. Special encoding issues:					
Does the proposal address other aspects of	f character data processing (if applicable) such as inpu	t,			
presentation, sorting, searching, indexing, t	ransliteration etc. (if yes please enclose information)?	No			
8. Additional Information:					
Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that					
will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script.					
Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour					
information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default					
Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related					
information. See the Unicode standard at http://www.unicode.org for such information on other scripts. Also					
see <u>http://www.unicode.org/Public/UNIDATA/UCD.html</u> and associated Unicode Technical Reports for information					
needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.					

#### C. Technical - Justification

	) been submitted before?	No
If YES explain		
2. Has contact been made to members of the u	user community (for example: National Body,	
user groups of the script or characters, o	ther experts, etc.)?	Yes
If YES, with whom?	Associations of Radio Industries and Businesses	
If YES, available relevant docume	nts: ARIB STD-B24 Version 5.1, "Data Coding and Tran	nsmission
	Specification for Digital Broadcasting"	
	http://www.dibeg.org/aribstd/STD-B24/ARIB_STD-B	24-1_v5.1
	_E1.pdf	
3. Information on the user community for the pr		
size, demographics, information technolo	······	Yes
Reference:	http://www.arib.or.jp/english/index.html	
4. The context of use for the proposed character	ers (type of use; common or rare)	rare
Reference:		
5. Are the proposed characters in current use b	by the user community?	Yes
If YES, where? Reference:	The document provided for question C2	
6. After giving due considerations to the princip	oles in the P&P document must the proposed characters be	entirely
in the BMP?		No
If YES, is a rationale provided?		
If YES, reference:		
7. Should the proposed characters be kept tog	ether in a contiguous range (rather than being scattered)?	No
8. Can any of the proposed characters be cons	sidered a presentation form of an existing	
character or character sequence?		No
If YES, is a rationale for its inclu	usion provided?	
	·····	
If YES, reference:		
	oded using a composed character sequence of either	
	oded using a composed character sequence of either	No
9. Can any of the proposed characters be enco	oded using a composed character sequence of either aracters?	No
9. Can any of the proposed characters be enco existing characters or other proposed cha	oded using a composed character sequence of either aracters?	No
9. Can any of the proposed characters be enco existing characters or other proposed cha If YES, is a rationale for its inclu If YES, reference:	oded using a composed character sequence of either aracters?	No
9. Can any of the proposed characters be enco existing characters or other proposed cha If YES, is a rationale for its inclu If YES, reference:	oded using a composed character sequence of either aracters? usion provided?	No
<ul> <li>9. Can any of the proposed characters be encoded at the proposed characters or other proposed characters or other proposed characters or other proposed characters of the proposed character (s) be caracter (s) be c</li></ul>	oded using a composed character sequence of either aracters? usion provided? onsidered to be similar (in appearance or function)	
<ul> <li>9. Can any of the proposed characters be encodexisting characters or other proposed characters.</li> <li>If YES, is a rationale for its incluent of YES, reference:</li> <li>10. Can any of the proposed character(s) be control of the proposed character?</li> </ul>	oded using a composed character sequence of either aracters? usion provided? onsidered to be similar (in appearance or function)
